

ES-SO Seminar at R+T Stuttgart 2012
Wednesday 29th February 2012, 9u30 - 12.30

“Solar shading essential for low energy buildings”

Peter Winters (9:30 a.m.)

President ES-SO – European Solar-Shading Organization

‘Challenges and opportunities for the solar shading industry’

Wilhelm Hachtel (10:00 a.m.)

Manager MHZ Hachtel GmbH, GER-Leinfelden-Echterdingen, and President Verband Innenliegender Sicht- und Sonnenschutz e.V., GER-Krefeld.

‘Solar shading solutions in low energy buildings’

Lieve Weytjens (10:30 a.m.)

Candidate Ph.D in Architecture, PHL Dpt. Arts & Architecture

‘Summer comfort in low energy housing’

Steve Selkowitz (11:00 a.m.)

Head Building Technologies Department, Berkeley Lab, U.S.

‘Demonstration of energy savings of solar shading’

Marilyne Andersen (11:30 a.m.)

Associate Professor of Sustainable Construction Technologies at the School of Architecture, Civil and Environmental Engineering of EPFL, Head of the Interdisciplinary Laboratory of Performance-Integrated Design (LIPID), Switzerland

‘Solar shading and its influence on daylight and well-being’

Conclusions and questions (12:00 a.m.)
